WORK EXPERIENCE

Co-op IT System Assistant – Sopinka Courthouse, Hamilton

Sep 2025 – Dec 2025

- Performed daily equipment and JVN (Justice Network System) checks to ensure smooth and uninterrupted court operations.
- Assisted judges and staff in troubleshooting software (Outlook, Office 365, Court Assist Software, etc.) and hardware (desktop, laptop, printer, sound system, etc.) issues.
- Logged IT tickets and coordinated with vendors to resolve technical problems efficiently.

Great Canadian Entertainment (Former OLG Woodbine Casino) - Toronto

Slot Technician – Full Time

Nov 2011 – Jun 2019

Senior Slot Technician – Full Time

Jun 2019 – Sep 2023

- Slot Operations Management: Coordinate slot moves, upgrades, and installations with vendors and regulatory agencies; ensure adherence to Internal Control Manual policies.
- Maintain a clean, safe work environment, follow safety protocols, and ensure compliance with security and company asset policies.
- Leadership & Project Management: Lead projects related to slot machines as a senior technician.

Slot Technician – Part Time

Sep 2023 – Present

- Responsible for the maintenance, repair, and installation of slot machines, ensuring proper functionality and compliance with safety and security policies.
- Maintain a high level of knowledge on various slot machines and promote excellent customer service and integrity.
- Comply with safety procedures, use required safety equipment and identify and report unsafe practices or conditions.

TECHNICAL EXTRACURRICULAR PROJECT

Ticket Scanning Application

https://github.com/Doan88/ticket_scanning_app

- Developed a real-time ticket validation system using Java and JavaFX, featuring duplicate detection, show type verification, and sound feedback for valid/invalid scans.
- Designed a responsive, styled UI with CSS and implemented a reset function to mark all tickets as unredeemed.
- Optimized backend algorithms for efficient ticket scanning and seamless GUI performance.

Hamilton Tourist Information

https://github.com/Doan88/hamilton_tourist_info

- Developed an interactive web app showcasing Hamilton's tourist information using Open Hamilton public data.
- Integrated Google Maps, Geolocation, and Geocoding APIs for dynamic markers, real-time location, and user-added locations.
- Implemented category-based filtering, custom markers, and driving directions using JavaScript, HTML5, and CSS.

TECHNICAL EXTRACURRICULAR PROJECT

Weather Radio Station React Native App

<https://github.com/Doan88/weatherRadio>

- Developed a React web/mobile app to display weather forecasts by city input or user location using OpenWeatherMap API.
- Integrated Google Maps (web) and react-native-maps (mobile) to show real-time user location.
- Streamed local radio stations by region using RadioBrowser API with native audio playback support.

Password Manager React Native App

<https://github.com/Doan88/backendPass>

<https://github.com/Doan88/frontendPass>

- Built a full-featured React Native password manager with screens for login, registration, adding, editing, searching, and viewing passwords.
- Developed a secure Node.js/Express backend with JWT auth, SQLite storage, and full CRUD operations for user-specific passwords.
- Implemented modular React Native components with Axios integration for smooth, real-time communication with the backend API.

Movie Collection React Native App

<https://github.com/Doan88/movieCollection>

- Developed a React Native app with a RESTful API to manage a movie collection (add, edit, delete, view).
- Implemented full CRUD functionality with Axios and Express backend.
- Implemented form validation, state management, and responsive UI for smooth user experience.

Pet Cafe Shop Website

<https://youtu.be/8CCUW6JBPz4>

- Developed a pet cafe shop website that have multi pages for general cafe info, events, menu, career, blogs and contact info.
- Also including mini map for direction, comment section for customer interaction.
- Built using WordPress.
